INTRODUCTION

The Largest Employers of the Portland/Vancouver Metropolitan Area directory is published annually by the Portland Business Alliance. Information in the directory covers Clackamas, Multnomah, Washington, and Yamhill counties in the state of Oregon and Clark county in the state of Washington. The directory includes some 350 companies with 200 or more employees. A few specialized public sector employers whose services are primarily user funded are also included.

The companies in this directory are listed by total number of employees. For some employers, such as hospitals, colleges and retailers, part-time employment often comprises a large

percentage of the total work force. For the colleges listed, however, part-time student employment is not incorporated into the employee count. Information regarding headquarters, year established and Internet addresses is listed only for those companies who made it available.

Data for this directory was gathered via direct mail survey December- January 2003 and followed up with phone interviews in the Spring of 2003. The information was gathered and compiled to ensure maximum accuracy; however, the publisher does not guarantee the accuracy of all information in this directory, and no responsibility is therefore assumed.
